# Introduction

## A 'Day in the Life of a Teacher Aide'

A teacher aide provides support to teachers and children in the classroom. Duties may involve administrative tasks such as photocopying, filing, and obtaining school records. As well, as setting up the classroom, organising children's work,

RESOURCES

**Set up and sustain individual and small group learning area**

Welcome! This is Section One for this unit.

During this unit, you will learn how to establish and organise individual and small group learning environments, such as a home-based classroom, activity area in a classroom or library, or a virtual schooling area.

As a key resource in your studies, this interactive learning tool will help you successfully complete this course.

To work through the resource, click on the Next button below.

You may click on the Prev button to review previous pages.

To jump to another slide, click on the required slide on the Contents Panel.

The Contents Panel is located at the right of the screen.

RESOURCES

**Reviewing student work**

Reviewing student work and providing feedback is an essential part of learning.

For students, it provides them with clear guidance on how they can improve their learning. It can also act as a tool that helps build their confidence and enthusiasm for learning.

For teachers and education support workers, reviewing student's work regularly and providing feedback, can assist in the identification of future learning needs and can help in the planning of learning activities.
